The Crate at Warehouse 4

Example Author

1.1 Corpus metrics

Linguistic metric	Measured value	Interpretation & reference
Total word count (full text incl. appendix)	1,104 words (6,244 characters)	Full text including the appendix. (~4.4 norm pages à 250 words / ~4.2 norm pages à 1,500 characters).
Main text word count (prose only)	1,074 words (6,102 characters)	Prose only. (6 chapters).
Total sentences (main text)	116 sentences	Total sentences of the main text.
Average sentence length (ASL)	9.26 words / sentence	Average sentence length of the main text.
Median sentence length	8 words	Median sentence length.
Sentence-length standard deviation	5.80 words	Spread of sentence lengths.
Lexical diversity (TTR)	0.3845 (V = 413 / N = 1,074)	Lexical diversity (type-token ratio).
Guiraud index R (V/√N)	12.60	V/√N; still sensitive to text length and topic.
Yule's Characteristic K	215.64	Vocabulary stability across text length.
MTLD (Textual Lexical Diversity)	104.1	Length-robust lexical diversity; short samples remain unstable.
MATTR (Moving-Average TTR)	0.805	Window-stable type-token ratio (Covington & McFall 2010).
Maas a^2	0.0452	Vocabulary concentration (Maas 1972; lower = richer).
Flesch Reading Ease	82.1	Language-calibrated readability formula of the active profile.
LIX (readability index)	28.0	Readability index (LIX).
Dialogue share (quoted speech)	123 words (11.45%)	Share of quoted speech in the prose.
Prose paragraphs	32 (33.6 words/paragraph)	Paragraph economy of the main text.

1.2 Sentence-length architecture & rhythm

The empirical sentence distribution of the main text:

Sentence-length category	Criterion	Sentences	Share	Interpretation limit
Short sentences (staccato)	≤ 6 words	43	37.1%	Short sentences; pace requires contextual review.
Medium sentences	7–15 words	56	48.3%	Sentence-length category, not a narrative judgement.
Long sentences	16–25 words	16	13.8%	Sentence-length category, not a narrative judgement.
Very long sentences	> 25 words	1	0.9%	Length does not establish syntactic nesting.

1.3 Punctuation as a stylistic seismograph

Punctuation mark	Frequency	Density (per 1,000 words)	Interpretation limit
Periods (.)	113	105.2	Basic sentence rhythm.
Commas (,)	31	28.9	Enumerations and appositions.
Dashes (–/—)	0	0.0	Afterthought, self-correction, insertion.
Colons (:)	1	0.9	Announcing lists, quotes, insights.
Semicolons (;)	1	0.9	Rare; avoids a lecturing tone.
Question marks (?)	3	2.8	Self-questioning and dialogue.
Exclamation marks (!)	0	0.0	Used sparingly.
Ellipses (…/...)	0	0.0	Breaking off a thought.

1.4 Chapter comparison matrix (linguistic deep profiles)

Ch.	Title	Words	Sentences	ASL	Dialogue %	TTR	Filter verbs	Dominant tense

Ch.	Title	Words	Sentences	ASL	Dialogue %	TTR	Filter verbs	Dominant tense
01	The Eastern Gate	163	12	13.6	0.0%	0.675	0	Past
02	The Loose Board	180	30	6.0	0.0%	0.639	0	Past
03	Questions on the Quay	195	28	7.0	63.1%	0.646	0	Past
04	The Customs Note	172	14	12.3	0.0%	0.622	0	Past
05	The Blank Line	183	16	11.4	0.0%	0.667	0	Past
06	Morning Handover	181	16	11.3	0.0%	0.669	0	Past
